

# How to connect iPad to KICE wireless

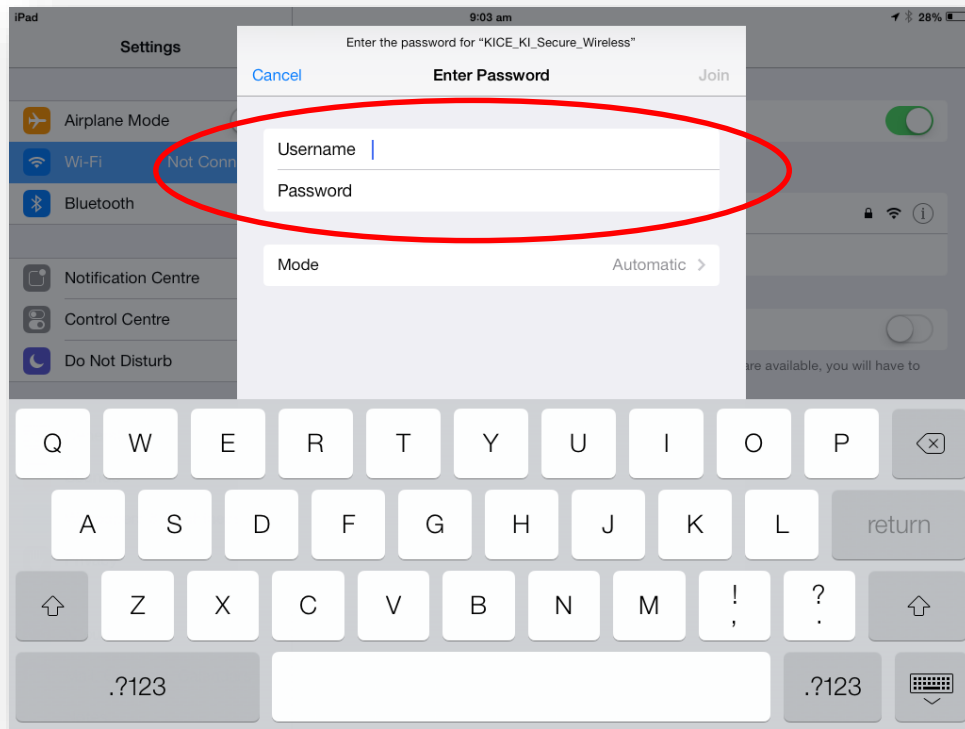

1. Open **settings** on your device

2. Under the **Wi-Fi** menu select the **KICE secure wireless network** for your campus

3. Enter your login details that you use to **log onto the computers at the campus you are currently in**. It will remember these wireless settings next time and connect automatically

4. **Accept or TRUST** the certificate (the window may not look exactly the same as below)
